THE VERY BEST WOODWORKING TOOLS

Sourced by woodworkers for woodworkers

Quality tools from the finest UK, US & Canadian manufacturers

Logos for brands: INCRA, Veritas, Ashley Iles, CLIFTON, ROUTER BOSS, Thomas Hain & Co, EASY WOOD TOOLS, Router Technologies, Woodpeckers, MICRO FENCE, MF.

As a subscriber to our [Peter Sefton Furniture School](#) Newsletter, we wanted to let you know of another service we offer which you may not be familiar with; we also offer a comprehensive [Tool Shop](#) offering a huge range of products that have been specifically sourced for their quality.

Selecting the right hand tools for the job and making sure they are sharp is a vital part of any furniture making or woodworking project – Peter spends a significant amount of time advising students on tool selection, so offering a tool shop selling tools which have been personally selected and tested by Peter seemed a natural progression.

Peter established the Tool Shop last year and has now acquired the [Wood Workers Workshop](#) to significantly increase and complement the product range. For the latest news and offers, please visit [Wood Workers Workshop](#) and sign up for our Newsletter by 31st October for a chance to **win a £100 Tool Voucher**

Prospective customers will be able to visit us here at the [Furniture School](#) workshop to see products in action. We have a full [INCRA](#) router table set up here with both over and under table extraction to show off the best of what's on offer from the USA and we've just taken delivery of the latest [Router Boss](#) - we believe we have one of the best equipped router demonstration workshops in the UK. Eventually we will also be offering specialist router courses on the Router Boss, to complement our other router courses using

conventional router setups - hand routing, template and guide bush work, and table mounted routing.

We've integrated both businesses into a single website with an online shopping facility and we are adding products daily – here are the contact details:-
